CONTENTS OF VOLUME XL.

NUMBER I.

Page.

ART. I. Notices of European Herbaria, particularly those most interesting to the North American Botanist, . . . 1

II. Fragments of Natural History; by Prof. J. P. KIRTLAND, M. D., ... 19

III. Description of a Halo or Corona of great splendor, observed at Greensburgh, Westmoreland County, Pa; by ALFRED T. KING, M. D., ... 25

IV. Extracts from the Proceedings of the American Philosophical Society, ... 27

V. Additional Remarks on the Tails of Comets; by WILLIAM MITCHELL, ... 59

VI. Notice of a Locality of Zeolites, &c., at Bergen, Bergen County, New Jersey; by WM. OLAND BOURNE, . . 69

VII. Notice of the Geological Survey of the State of New York, presented to the Legislature, Jan. 24, 1840; by Prof. OLIVER P. HUBBARD, M. D., ... 73

VIII. On the Magnetic Dip in the United States; by Prof. ELIAS LOOMIS, ... 85

IX. Description of some new species of Fossil Shells, from the Eocene, at Claiborne, Alabama; by HENRY C. LEA, 92

X. A Description of several New Electro-Magnetic and Magneto-Electric Instruments and Experiments; by JOSEPH HALE ABBOT, ... 104

XI. Development of some interesting Properties of Numbers; by GEORGE R. PERKINS, ... 112

XII. Remarks on the Geological Features of the Island of Owyhee or Hawaii, the largest of the group called the Sandwich Islands, with an account of the condition of the Volcano of Kirauea, situated in the southern part of the Island near the foot of Mouna Roa; by EDWARD G. KELLEY, ... 117

XIII. The employment of Iodine as a reagent for Hydrosulphuric Acid; by M. ALPHONSE DU PASQUIER, ... 123

Page.

XIV. Notice of Geological Surveys. I. Of the State of Ohio. II. Of Indiana. III. Of Michigan; by Prof. Oliver P. Hubbard, M. D., ... 126

XV. The Daguerreotype and its Applications; by W. H. Goode, 137

XVI. Supplementary Note to the Article on the Pneumatic Paradox in the last number of this Journal; by Joseph Hale Abbot, ... 144

XVII. Miscellaneous Observations on Insects, &c.; by Dr. John T. Plummer, ... 146

XVIII. On Terrestrial Magnetism; by Prof. John Locke, M. D., 149

XIX. Electrography or the Electrotype; by the Junior Editor, 157

XX. Bibliographical notices:—Report on the Tea Plant of Upper Assam, 165.—Report of M. Guillemin, 167.—The Spiritual Life of Plants, 170.—The Journal of Botany, &c., 172.—Hooker's Flora Boreali-Americana, or the Botany of the Northern parts of British America, 173.—Endlicher's Genera Plantarum: Enumeratio Chenopodearum: Stendel's Nomenclator Botanicus: Caricography: Fossil Infusoria in England, 174.—Chemical composition of cellular and woody tissue in Plants, 176.—Organic Chemistry in its applications to Agriculture and Physiology, 177.—Report on the Geological and Agricultural Survey of the State of Rhode Island in 1839, 182.—History of Embalming and of Preparations in Anatomy, Pathology, and Natural History, including an account of a new process for Embalming, 194.—A General Outline of the Animal Kingdom: Boston Journal of Natural History, 196.—Supplement to the introduction to the Atomic Theory, 197.

Miscellanies.—Horticultural Experiments, 197.—Volcanic Ashes, 198.—African Meteorite of Cold Bokkeveld, 199.—Further account of the Shooting Stars of August, 1840, 201.—Meteors of November, 202.—Meteoric Observations in October and December, 1840, 203.—Meteorological Notes in 1741–1757, 204.—Galle's Three Comets: New Comet: Manufacture of Glass for Optical Instruments, 207.—Parasite of the eggs of the Geometra vernata, 211.—Circular of the Royal Society of Northern Antiquaries, 212.—Level of the Dead Sea: Preservation of Timber: Preservation of Timber long sunken under water, 213.—New process for making Sulphuric Acid, 214.—Oxalic Ether with Chlorine: Elaterite, or Fos-

Page.

sil Caoutchouc, 215.—Gold in France: Artificial preparation of Sugar: Action of Alcohol upon Alkalies, 216.—Iodine in Coal: Six new species of Kangaroo, 217.—Proceedings of the Tenth Meeting of the British Association: Necrology, 218.

NUMBER II.

ART. I. Notice of the Botanical Writings of the late C. S. Rafinesque, ... 221

II. Abstract of a Letter to Baron A. Humboldt, upon the Invention of the Mariner's Compass, ... 242

III. A Method of determining the Temperature of the Mercury in a Siphon Barometer, from the observed upper and lower readings; and of testing the accuracy of the instrument; by Prof. FARRAND N. BENEDICT, ... 250

IV. Catalogue of the Mollusca of Middlebury, Vt. and vicinity, with observations; by Prof. C. B. ADAMS, . . 266

V. On the Means of detecting Arsenic in the Animal Body, and of counteracting its Effects; by J. LAWRENCE SMITH, M. D., ... 278

VI. On the Extrication of the Alkalifiable Metals, Barium, Strontium, and Calcium; by Prof. ROBERT HARE, M. D., 293

VII. Description of an Apparatus for Deflagrating Carburets, Phosphurets, or Cyanides, in vacuo or in an Atmosphere of Hydrogen, with an account of some Results obtained by these and by other means; especially the Isolation of Calcium; by ROBERT HARE, M. D., ... 303

VIII. Abstract of the Proceedings of the Tenth Meeting of the British Association for the advancement of Science, . 308

IX. Abstract of a Meteorological Journal for the year 1840, kept at Marietta, Ohio; by S. P. HILDRETH, M. D. . 345

X. Contributions towards a History of the Star-Showers of Former Times; by EDWARD C. HERRICK, ... 349

XI. On Native and Meteoric Iron; by Prof. CHARLES UPHAM SHEPARD, M. D., ... 366

XII. On the First, or Southern Coal Field of Pennsylvania; by M. CAREY LEA, ... 370

XIII. Proceedings of Scientific Societies, ... 374

XIV Bibliographical Notices:—Plantæ Javanicæ Rariores: Hooker's Icones Plantarum, 391.—The Linnæa, 392.—Reports on the Progress of Botany, 393.

MISCELLANIES.—Exploring Expedition, 394.—Theory of Water Spouts and Tornadoes, 399.—Notice of a new variety of Beryl, 401.—Meteorology, 402.—Royal Society of Northern Antiquaries, 403.—Fossil Remains in Lenoir County, N. C.: Removal of Fishes, 405.—Stars missing, 406.—Ice formed at the bottom of a river: Depth of the Ocean: Obituary of Ebenezer P. Mason, 407.—Supplementary Note to Prof. Adams's Catalogue of the Mollusca of Middlebury, Addison Co., Vt., 408.

ERRATUM.

P. 105, lines 26, 27. The phrases "*one of the outer bands*," and "*the middle band*," are to be substituted for each other.
